## Professional Summary

Computer Science undergraduate and Google Gemini Student Ambassador with hands-on experience in machine learning, Natural Language Processing, and full-stack development. Built and deployed AI-driven applications and predictive models using Python, React, and FastAPI. Demonstrated track record in technical leadership, successfully orchestrating programming fundamentals training for 25+ peers and boosting project completion rates by 30%.

## Technical Skills

**Programming Languages**: Python (Expert), Java (Intermediate), C, C++, JavaScript
**Web & Backend**: HTML, CSS, React, FastAPI
**Core Concepts**: Data Structures, Algorithms, Object-Oriented Programming, MySQL, Distributed Systems
**Tools & Technologies**: GitHub, VS Code, IntelliJ, Google Analytics

## Education

**Galgotias University** — Sep 2023 – Present, 6.8/10
*B.Tech. in Computer Science & Engineering* — *Greater Noida, UP*

**Lucknow Public School** — May 2023, 74%
*Class XII (CBSE)* — *Lucknow, UP*

**Lucknow Public School** — Aug 2021, 84%
*Class X (CBSE)* — *Lucknow, UP*

## Experience

**HCL GUVI (HCL JIGSAW)** — Apr 2025 – Aug 2025
*Mentor* — *Noida, UP*

- Instructed a cohort of 25 students in Python and Java programming fundamentals, executing 10 comprehensive weekly code reviews to identify and resolve 50+ syntax and logical errors.
- Accelerated student project milestones by implementing structured debugging frameworks, resulting in a 30% increase in overall cohort project completion rates within a 4-month timeframe.

## Academic Projects

**AI-Driven Smart File Assistant** — Nov 2025 – Jan 2026
*Project Developer* — *Greater Noida, UP*

- Programmed an intelligent file parsing assistant utilizing Natural Language Processing (NLP) to extract and query data across 500+ text documents.
- Slashed manual document retrieval time by 40% by integrating a custom React user interface with an optimized FastAPI Python backend.

**Student Score Predictor** — Nov 2025 – Jan 2026
*Project Developer* — *Greater Noida, UP*

- Formulated a predictive machine learning model employing Python, Scikit-Learn, and Pandas to forecast academic outcomes based on 4 key student performance metrics.
- Processed and trained the predictive algorithm on a historical dataset comprising 1,200 records, attaining an 85% predictive accuracy rate.

**Hospital Management System** Mar 2024 – Apr 2024

*Project Developer* *Greater Noida, UP*

- Coded a full-stack relational database system using Java and SQL to securely store and manage medical records for 250+ simulated patients.
- Automated appointment scheduling workflows by integrating the Google Calendar API, eliminating 100% of manual booking redundancies.

## CERTIFICATIONS & ACHIEVEMENTS

- **Google Gemini Student Ambassador:** Selected to participate in Google's campus program to promote AI technologies.
- **GUVI Certifications:** Earned technical certifications in Python (Beginner to Expert), Java Data Structures, and C Programming.
- **Data Analytics:** Completed the Tata GenAI Powered Data Analytics Job Simulation.
